MaineDOT

CONSULTANT CONTRACT STANDARD INVOICE

Negotiated Rates - WITH Sub Consultants

WORKBOOK GUIDE

(Microsoft Excel 2002)

EACH INVOICE SUBMITTED MUST:

1. CONTAIN DATA FOR ONE CONTRACT ONLY, INCLUDING MULTI-PIN DETAIL AS APPROPRIATE.

2. CONTAIN A "CONSULTANT INVOICE NUMBER" THAT IS UNIQUE TO THAT FIRM AND CONTRACT WITH NO MORE THAN 12 CHARACTER FIELDS USED (including punctuation and spaces).

3. **INCLUDE THE SAME SUPPORTING INFORMATION ATTACHED TO THE INVOICE AS IN THE PAST.**

---

1) Do not try to enter data into blue colored cells, they are filled by formula, or by link from another cell in the workbook. Yellow and pink colored cells are for data entry. Yellow cells should only require data entry with the first invoice for a contract; pink cells will need review and possibly update with each invoice submitted.

2) Sheet 2 of 3, top right side, "Final Invoice?", must indicate either "yes" or "no" and should not be left blank. This not only aids processing, but also provides critical data for formulas and cells on other sheets.

3) The MaineDOT PIN field is preformatted to produce an 8 digit number in decimal format. Do not enter a decimal point. The last 2 digits entered must be the 2 digits to the right of the decimal (even zeros), but no decimal should be shown. Do not enter leading zeros.

4) The payment address can be entered directly on Sheet 1 if it is different than the firm address entered on the Main Data Entry form.

5) Comment boxes have been added to a number of data entry fields to help clarify input intentions, or identify specific needs in those cells.

6) Function and Activity coding for PIN lines on Sheet 3 of 3 is not mandatory to submit a completed invoice, but should be entered if known, especially for multiPIN projects.
